Products & Applications

STRAT-FLEX®

Our **NEW** line of Composite and Paper-Faced Composite Drywall Tapes offer ease of installation, perfect straight lines and unmatched bondability. Guaranteed: no cracks – no callbacks.

Composite Drywall Tapes

Get it done fast, and get it done right! These composite drywall tapes were developed to provide perfect corners that will not rust or crack. The high-tech PVC based composite material allows for a better job in less time.

Features:

- Produces fast, straight and strong corners
- Second coat of compound can be applied immediately; very light skim-coat to finish
- Installs using standard compounds and no special tools or fasteners are required
- Resists dents, paint chipping, shrinkage and common cracking problems
- Waterproof; Rustproof
- No nail pops
- No cracks – no callbacks

Paper-Faced Composite Drywall Tapes

To get the job done fast and done right, these paper-faced composite drywall tapes feature a memory-free hinge design that speeds application and provides straight corners. Available in widths of 2 ½", 3" and 4", CGC provides a product suited for your specific application.

Features:

- Memory-free hinge design allows for ease of installation, straighter corners and perfect angles
- Straightens most framing irregularities
- Diamond-punched pattern guarantees an even lay-down of paper, providing maximum adhesion with no wrinkling or blistering
- Second coat of compound can be applied immediately; very light skim-coat to finish
- Laminated nose ensures perfect corners without paper fuzz-ups during finishing and sanding
- Cuts easily with knife or scissors
- No curl-up after folding product
- No cracks – no callbacks

Composite Drywall Tapes

ORIGINAL

Drywall Inside and Outside Corner Flex Tape

DESIGNED AS THE MOST VERSATILE, MULTI-PURPOSE DRYWALL TAPE

- Creates perfect inside and outside 90° corners and angled corners
- Ideal for bay windows, coffered ceilings and inside corners where gaps are present
- Replaces conventional corner bead and uses half the compound
- Straightens common framing irregularities for vertical corners
- Resists dents, paint chipping, shrinkage, and common cracking problems
- Rustproof
- Cuts easily with knife or scissors
- No special tools or fasteners required

MEDIUM

Drywall Inside Corner Flex Tape

DESIGNED FOR INSIDE 90° CORNERS & ANGLED CORNERS

- Creates perfect inside 90° corners, angled corners and inside angles of bay windows
- Straightens minor framing irregularities
- Resists blisters, tears, shrinkage and wrinkles
- Waterproof; Rustproof
- Slotted edges ensure superior bond
- Ten times stronger than paper tape
- Twice as fast as paper or mesh tapes
- Slightly thinner than ORIGINAL

MID-FLEX²⁵⁰

Drywall Inside and Outside Corner Flex Tape

DESIGNED FOR INSIDE & OUTSIDE CORNERS, VAULTS, COFFERS AND ANGLED CORNERS

- Creates fast, perfect, inside and outside corners, angled corners and inside corners of bay windows and coffers
- Inside 90° corners where a large fill or straightening is required
- Straightens framing irregularities
- Memory-free hinge design allows for ease of installation and straight corners
- Paper edging allows for easier feathering and no edge-cracking
- Diamond-punched paper ensures ultimate bonding and faster drying
- Laminated nose protects against paper fuzz-ups during finishing and sanding

MID-FLEX³⁰⁰

Drywall Inside and Outside Corner Flex Tape

DESIGNED FOR STRAIGHTENING COMMON IRREGULARITIES IN VAULTED CEILINGS AND COFFERS

- Highly recommended for corners in vaulted ceilings, butterfly vaults, outside 90° corners, off angles, outside corners of bay windows and coffers
- Outside corners where a large fill or straightening is required
- Replacing damaged metal corner bead
- Straightens framing irregularities
- Memory-free hinge design allows for ease of installation and straighter corners
- Diamond-punched paper ensures ultimate bonding and faster drying
- Laminated nose protects against paper fuzz-ups during finishing and sanding

WIDE-FLEX⁴⁰⁰

Drywall Inside and Outside Corner Flex Tape

DESIGNED FOR HARD-TO-STRAIGHTEN VAULTS & OUTSIDE CORNERS

- Ideal for hard-to-straighten outside corners and vaults, butterfly vaults, obtuse angles and double 5/8" outside corners
- Straightens framing irregularities
- Memory-free hinge design allows for ease of installation and straighter corners
- Diamond-punched paper ensures ultimate bonding and faster drying
- Laminated nose protects against paper fuzz-ups during finishing and sanding

Composite Corner Beads

Our **NEW** Composite Corner Beads are the most durable and cost-effective corner beads on the market and are ideal for high impact areas such as commercial and rental properties. They're designed for fast, clean installation; and are the easiest to corner bead repair.

Features:

- Clean installation
- Easiest corner bead on the market to repair
- Cuts easily

ARCH-STICK

Outside 90° Arched Corner Bead

DESIGNED TO ELIMINATE FLAT SPOTS IN CURVED APPLICATIONS

- Ideal for arched doors and windows, curved walls, ceilings, soffits, staircases and groin barrel ceilings
- Free-Form, custom drywall applications where a seamless installation is required
- PVC/Tempered-steel backbone for perfect arches – No flat spots
- Patented tear strips reduces transportation damage and are designed to make curved to straight transitions unnoticeable
- Composite nose resists dents and provides a beautiful corner without fuzz-up during finishing and sanding

Patching Products

Thin, strong, fast and economical. From minor holes and cracks to large holes and mis-cuts, CGC's **NEW** patching products make repairs easy for the professional or homeowner. The patch's patented composite material creates a strong bond with the damaged surface.

Features:

- Pre-cut to fit most applications
- Patches won't fuzz up during sanding like fiberglass-metal patches
- Will not sag with ceiling applications
- Easily installs using standard compounds. No special tools or fasteners required
- Second coat of compound can be applied immediately;
Very light skim-coat to finish

PERMA-PATCH

Drywall Repair Patch

MULTI-PURPOSE DRYWALL PATCH

- Quickly repairs door knob damage to drywall
- Imprinted with can light and standard receptacle patterns for easy trimming
- The most economical and permanent way to repair drywall
- Outperforms metal patches

OUTLET PATCH

Receptacle Repair Patch

MULTI-PURPOSE DRYWALL PATCH

- Pre-cut to fit standard receptacle boxes
- Repairs and reinforces mis-cuts or damaged areas around receptacle box
- Very fast – extremely strong

Products & Applications

CGC offers tapes, trims and patches for all drywall applications.
