

HICKEY'S TIMBER MART

47 mins · 🌐

...

We are open.

We are open for Eastern Health when they need to modify a room for the front line workers.

We are open for the seniors' retirement home when their roof leaks.

We are open for your neighbour when their hot water boiler breaks.

We are open for your parents when they need fuses for their panel box.

We are open for you when your pipes burst and you have water in your basement.

We are essential because the safety of your home is essential.

We are open and we have safety precautions in place for our hard working staff and our loyal customers. Call us when you need us and we will deliver to your driveway or you can pick it up at the store with no touch service.

We are scared too, but we need to look after each other, as that is what Newfoundlanders do best.

We are open in the background supporting the heroes that emerge in our community during this crisis.

We are here for you.

'We love thee smiling land'

**"We Are
Here
For You"**
